SCANDINAVIAN CHILDHOOD

THE BRAND

A large number of small, dark grey bird silhouettes are scattered across the page, primarily in the upper and lower left areas. They are depicted in various flight poses, some facing left and some facing right, creating a sense of movement and air. The birds are of different sizes and orientations, giving the impression of a flock or a group of birds flying freely.

VOKSI has been an essential part of the Scandinavian childhood for over 30 years. All through the year the Scandinavian air surrounds you and your child on every walk, long or short, and becomes an essential part of every memory you build together as a family. Every day, the signature of a Scandinavian childhood is the safety of a hand to hold, the warmth of eyes connecting and the loving embrace of a parent when the world gets a bit too big. You see, we are not only talking about Scandinavia as a geographical location but as a mindset and a way of living. It is simply about joy, love and togetherness. When introducing our collections, our wish is to bring you a touch of our Scandinavian inspired philosophy, gently surrounding your child, providing safety, warmth and a loving embrace – both for indoor and outdoor activities. So to parents all over the world, we hope to create a gentle touch of the Scandinavian warmth for your child, together with you. That is why we proudly sign our brand «Scandinavian childhood».

VOKSI® AUTUMN WINTER STROLLER BAGS

Choose the right bag for your child

VOKSI TEMPERATURE GUIDE

Take a closer look at our temperature guide when browsing our wide range of footmuffs and sleepings bags, designed to keep your little one warm and cosy over the cold months.

This is how we tested the sleeping bags:

As there is no standard for sleeping bags for children, it is challenging to state specific temperatures. We have tested all of our sleeping bags for insulation, which shows how well the bags hold in the heat. Based on these results, we have created a scale that shows which bags are suitable for the different types of winter, and this is the basis of the temperature guide. The temperature guide from Voksi is meant to be a tool for separating the characteristics of the individual sleeping bags from each other.

What clothes should your baby wear in the sleeping bag?

Temperature and wind strength vary widely during the winter, and there will be major differences in

VOKSI TIP

When your child is small and can't fully fill out the sleeping bag you can fold a blanket and place it in the foot end inside the bag to ensure extra warmth and comfort

what the child should wear in clothing. By regulating the child's clothing, one can, therefore, use the sleeping bag through several seasons. It is very individual how warm the child is, and therefore the attire should also vary for the individual child. To check if the baby is properly dressed, you should feel in the neck whether they are too hot or cold. Woolen clothes regulate the heat, and we recommend using wool material most of the year.

2 MILD WINTER

3 WARM WINTER

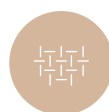

VOKSI® ACTIVE

Winter sleeping bag for
tough weather conditions.

Voksi® Active is designed to withstand harsh weather conditions and keeps your child in a warm and stable temperature during all your outdoor adventures. Your baby will stay comfortably warm from head to toe when you go out in the stroller, bicycle trailer or jogging stroller. It's also perfect for babies who nap outdoors. Voksi® Active is made of water resistant, wind-proof and breathable materials. This is the warmest sleeping bag in our range.

VOKSI[®] CLASSIC+ / VOKSI[®] CLASSIC+ MINI

The Voksi[®] Classic+ fits perfectly into your stroller, but can also be used as a duvet, play blanket or as a carry cot.

The Voksi[®] Classic+ is the original 100% wool sleeping bag and winter duvet. Versatile and flexible, it adapts to the size of your child and fully opens to be used as a play mat or blanket. The soft cotton cover is treated with BIONIC-FINISH[®]ECO which makes the bag wind and water repellent. Use the bag as a handy carrycot with the addition of the carrying board accessory. This bag is available in two sizes, the original Voksi[®] Classic+ and the smaller size called Voksi[®] Classic+ Mini.

VOKSI® CARRY NORTH

For families seeking a carry cot with sleeping bag function.

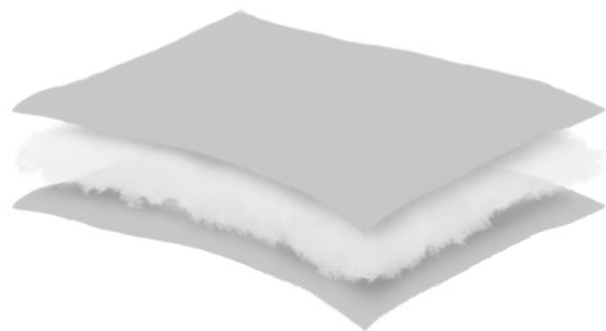

Voksi® Carry North is our winter carrier sleeping bag it comes with a carryboard included. Use Voksi® Carry North on the go, with the carryboard you can easily move your child when sleeping.

Voksi® Carry North is developed to be used in prams with a 2 point harness. For this reason there is only 2 holes in the back for the harness, not 5 (or more), as on our other sleeping bags.

Use with carryboard in a pram up until the child weighs 9 kg and use in a pram without the carryboard up to age 3. Voksi® Carry North can be folded in multiple ways to perfectly adjust it to your child's height as well as to the temperature conditions and your child's preference. With its flexible closing system, this bag will grow with your child from 0 to 3 years. Voksi® Carry North has been safety tested for the carrycot standard DS/EN 1466:2014.

VOKSI[®] MOVE

The Voksi[®] Move fits most baby car seats and strollers. Smart openings in the back make the stroller bag easy to adjust based on your infant carrier.

Voksi[®] Move makes it easy to move your child from stroller to car and vice versa and keeps it safe and warm while you're on the go. It's also the perfect first stroller bag for newborns. Featuring smart back openings to fit internal harnesses of most car seats and strollers without adding a thick layer between your child and the harness. Voksi Move has been crash-tested in combination with BeSafe car seats. Use it only in car seats in a rearfacing position.

REPAIR PATCH

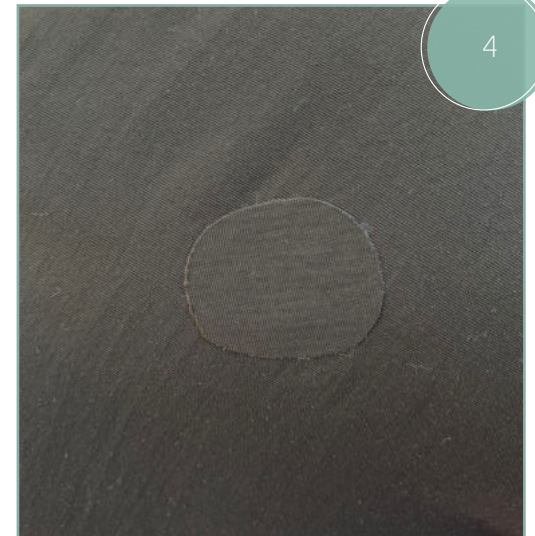

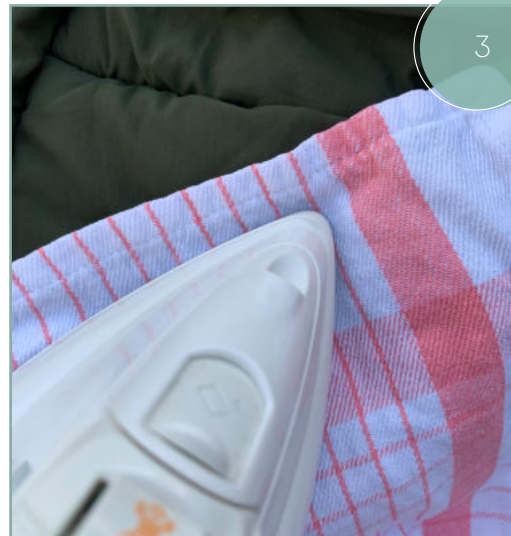

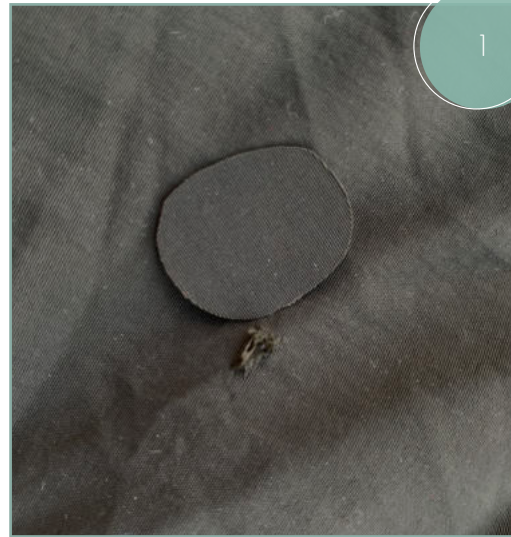

DID YOU GET A HOLE IN YOUR VOKSI®?

Use the repair patch to fix it and add an even longer lifetime to your Voksi®.

1. Cut the repair patch bigger than the hole and round the corners
2. Remove the paper from the back side and place the patch over the hole
3. Place a tea towel on top of the Voksi® and iron at low heat until the repair patch is fully attached
4. You have now got a fully functional Voksi® again

This is what we call lasting love.

WHY? Supply chains in the textile industry are long and incredibly complex. The transformation from raw materials into finished products include many processes, a lot of people and the same amount of promises. When using independent third party certifications we can rest assure that our materials are of the quality we demand and that the promises are kept. We put our trust to STANDARD 100 by OEKO-TEX, Global Recycled Standard, Responsible Wool Standard and Responsible Down Standard. Look out for the logos on each product to see how the products are certified.

We see it as our greatest job to make products that are safe for babies and children. Oeko-tex is our assurance that our products are free from harmful chemicals and substances. All components of a product need to comply in order for a product to receive the certificate. Fabrics, strings, threads, buttons, zippers, dye colors, prints, production processes, everything. In 2017 we launched our very first products produced solely with materials complying with the STANDARD 100 by OEKO-TEX®, Class 1. The process was long and complex but it was an important step for us to take. Since 2017 all our products, which are in direct contact with the child, are certified with class 1. Our certificates from Oeko-tex are extremely valuable to us because it gives our customers added confidence in our products. We have two certificates, one covering our wool collection and one covering all other products.

IN SHORT

- There are no harmful chemicals and substances in the materials or production processes
- All Voksi products, in direct contact with the child, are certified with class 1. There are 4 different classes, class 1 being the strictest.

GLOBAL RECYCLED STANDARD

As much as possible we strive to use natural materials. For some products though, we use polyester and other non-natural fibres due to durability and performance requests. When doing this our aim is to use recycled fibres whenever possible. Our recycled polyester is made from post-consumer PET, often plastic bottles. To make sure that the fibres are in fact recycled we retrieve a certificate from GRS - Global Recycling Standard. GRS tracks materials from input to the final product, and also ensures responsible social, environmental practices and chemical use through production.

IN SHORT

- The Global Recycled Standard certificate assures that a material is made from recycled content.
- From 2019 Voksi has used recycled polyester filling in the following products: Breeze Light, Sky Light, Sleepsack, Carry and Carry North
