About

Our mission and history

resqme, Inc. is passionate and knowledgeable about creating life saving solutions for emergencies – when seconds count. We are more than just a company, we are part of a worldwide community of first responders and civilians alike. We are committed to the safety of our customers and the reliability of our products. This commitment shows in everything we do.

resqme® the original keychain car escape tool, was originally introduced to first responders (police, firefighters and paramedics) in 2002 then gradually was expanded to the corporate and consumer markets. resqme, Inc. now offers several life-saving products for emergency use on and off the road. With our small team, based in Santa Barbara, CA, our products are carried by more than four million people in over 45 countries worldwide.

The founder, Laurent Colasse, originally from France, moved in the early 1990's to USA, Laurent is a great example of the American entrepreneur. Self directed, his passion for life helps him have a positive attitude towards any challenge. He has driven resqme Inc.'s business by creating simple and functional concepts that make a difference in people's lives. Influencing them to become socially responsible for their safety and others. Awarded at multiple events and with widespread media recognition for his inventions, Laurent is a visionary, guiding the company to be a global brand, starting with its newest tagline: Make safety your priority...

Our success in fulfilling our mission is measured by customer trust and satisfaction, team member happiness and excellence, improvements in the field of safety, as well as local and larger community support. resqme, Inc. is dedicated to making products for the best interest of all – with a manner of care, safety, and to offer users peace of mind in multiple emergency situations. Since 2006, we have proudly been partnered with New Horizons, one of the largest working disabled facilities in the nation, to pack and fulfill our resqtools for the retail market.

Our headquarters are located in Santa Barbara, CA

Reviews

"Have used it three times as a First Responder. Worked every time as if it was the 1st time being used. A must have for all first responders and travelers a like!"
"Good fit in a woman's purse and seemingly easy to use..."

Media reviews

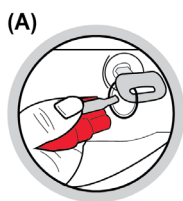

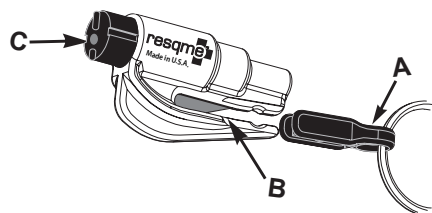

"The resqme is a serious emergency escape tool that doubles as a keychain."
– Jim Travers - ConsumerReports.org
"This tool is amazing." – Michael Finney - ABC7 News
"Every car should have one." – Lara Spencer - GMA

- Peace of mind behind the wheel
- Available in charcoal/yellow
- Custom logo imprints are available
- Available colors are Neon Yellow & Charcoal

Reviews

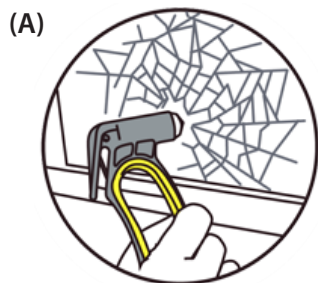

"Functional, solidly built; nice design. You can't put a price on your life!"

This is our fourth rescue hammer. We have one in each car plus a couple extras in our 15 passenger van due to the length. This model is far and away my favorite. It looks nice in the car, noticeable in an emergency but not garish like the bright orange ones. Unlike older models that snap into a black plastic tray larger than the hammer itself this one clips onto an unobtrusive holder.

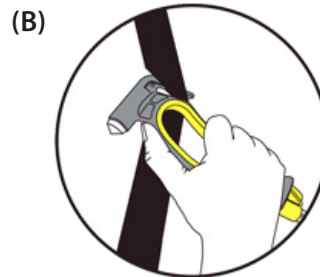

"Eyewitness News Reporter was able to easily break the driver's side window from the inside using resqhammer™!" - ABC13 (Houston KTRK)

- Easy to use
- Convenient and compact
- Affordable
- Attach it to a bag or keys with the included lanyard
- Branded lanyard
- Provides safety when needed
- A great gift for loved ones
- Custom logo imprints are available
- Available colors are Red & Charcoal

Reviews

"I feel so much safer now that I have the alarm. The alarm is earsplitting, loud enough to attract attention when you are in need of help. It is small enough to wear under my shirt so nobody knows it is there except me. I like the way it works, you pull down on the bottom of the alarm to make it work... I recommend this alarm for everyone."

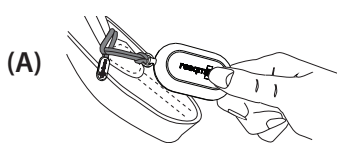

"Deafening! Don't mess with my daughter now :-)"

"The alarm is very easy to hang on a purse or carry in a pocket!"

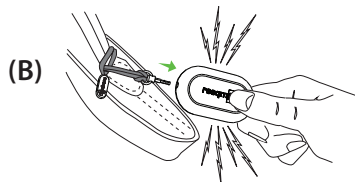

"So small and very loud"

Personal Safety Alarm

Instructions

Pull out from the clip

Alarm turns on and rings loudly

Insert pin back into device to stop

Drive Safe, Stay Awake

THE TOOL THAT SAVES LIVES

- The latest electronic device to prevent an accident caused by falling asleep behind the wheel
- Loud beeping alarm 80dB
- Compact and lightweight design
- Flexible to fit different ear shapes will not interfere with the fit of prescription eyeglasses and sunglasses
- Motion activated beeping alarm
- Comfortable to wear
- Mercury free
- Available in black
- Could save yours and others lives while driving

Reviews

"Bought it for my daughter who drives some distance to work and back early mornings and late nights to keep her from falling asleep at the wheel. Works great and keeps my daughter safe..."

"Used it on a cross-country driving trip. Once I figured out how to get it on (yes, I read the directions), it worked. I had no problem getting it to stay on even though I wear glasses."

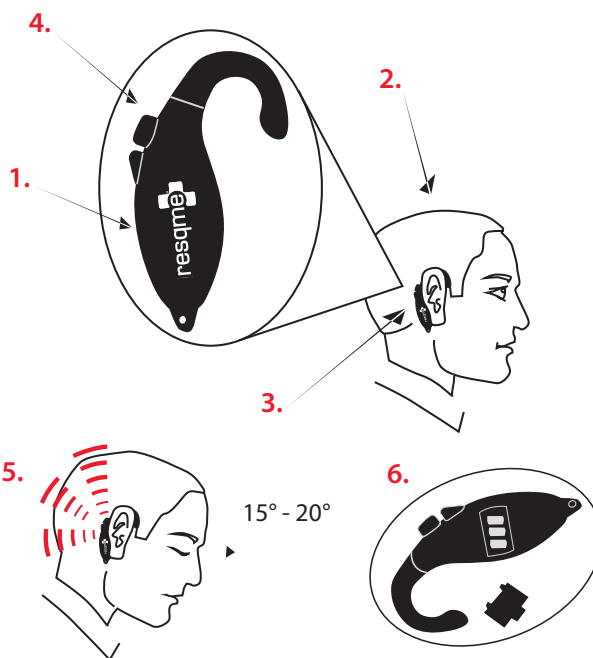

"I do a lot of driving. Saw this and thought it was a cool concept. It's super loud and definitely would wake me up."

"Test it out before you use it as you have to get it just in the right spot. Wearing it is no big deal."

Drowsy Driver Device

Instructions

1. Remove the plastic tag from the batteries for activation
2. Move head to upright position
3. Place behind ear
4. Turn to 'on' position
5. Nod your head about 15 – 20 degrees until device sounds
6. Open cover to change batteries
